**GROWER: FARREN DAKIN DAIRY**

**LOCATION: MYAKKA CITY, FLORIDA**

**CROP: PASTURE**

**RESULTS:**

“The most important thing to me is the quality of the grass that we produce. Using C-CAT has definitely improved the quality, color, and root system. Nutrient uptake has also been more efficient and this equals overall health, and vigor to our crops. I plan to continue the use of C-CAT because it has been economically efficient with my fertilization program.” Farren Dakin
