

GROWER: SPRING LAKE GOLF COURSE

LOCATION: SEBRING, FL

SUPERINTENDANT: RUSSELL (RUSTY) DEAN

RESULTS:

“Over the past few years I have used the C-CAT with great results. The greens have responded by coloring more darker, and excellent root growth. The turf looks healthier and seems to take more stress. I feel the C-CAT is doing the job it was designed to do, allowing more uptake of nutrients that have been unavailable in the soil.”
