

GROWER: Spring Lake Golf Course
36 hole Golf Course on Hwy 98 in Sebring, Fl.

SUPERINTENDANT: Russell (Rusty) Dean

APPLICATION METHOD:

½ gallon of C-CAT per acre with 100 gallons of water and 1 quart of Ballistic sprayed 2 times a month.

COMMENTS:

"Over the past 6 months I have used C-CAT with great results. The greens has responded by coloring more darker, and Excellent root growth. The turf looks more healthy and seems to take more stress. I feel that C-CAT is doing the job it was designed to do, allowing more uptake of nutrients that has been unavailable in the soil, till it was applied. Thanks."

Russell (Rusty) Dean
