**GROWER: DONALD PADGETT INC.**

**LOCATION: ARCADIA, FLORIDA**

**CROP: PEACHES**

**RESULTS:** “The use of C-CAT has been instrumental in my nutritional program in many ways. The fruit was firmer; the brix was higher than last year, and continued to hold through the season, resulting in higher pound solids at the end of the harvest. The harvest began 7 days earlier this year. I highly recommend the use of C-CAT in your nutritional program. It is definitely worth the investment.” Donald Padgett, co-owner
